Treatment table	MLX Quartz

## Quartz Varieties

Standard

Gold

Golden Rain

Solid Ocean

### Specific quartz sand mixtures:

Persian Blue Salt

Himalayan Touch

Baltic Sunset

The mixture of quartz sand and high-quality Baltic amber uses the beneficial power of "The Gold of the Baltic Sea". The following effects are attributed to amber, also called Stone Of Security, Stone Of Trust or Stone Of Wholesomeness.

- mental harmonization.
- an energizing effect.
- a compensatory effect on the hormone balance.
- increased vitality.
- detoxification of the body.
- anti-inflammatory effects - even on the skin.
- support of the immune system.

The mixture of quartz and amber provides extraordinary Signature treatments and is also suitable for Thalasso treatments.

This innovative mixture of quartz sand and Himalayan rock salt brings the beneficial microclimate of mountains, coasts and forests into your treatment room! The steplessly adjustable heating of the quartz and salt mixture release the ions of the salt. The ionized air increases the oxygen uptake during breathing. The positive effects are:

- refreshing and vitalising effects.
- relaxing, anticonvulsant and calming effects.
- stimulation of the metabolism and immune system.

A "bath" as if you be in the ocean - bring the ocean into your Spa using the new Colour Sand Solid Ocean! The mixture of blue, white and grey quartz sand reminds us of the silver-blue waves of the ocean and reawakens holiday memories. And therefore, Solid Ocean provides an extraordinary experience in all Spa and wellness areas as well as for Thalasso treatments.

Customised colour mixtures for individual Signature treatments and treatment table presentations are available on request.
