

1. Identification of preparation and company

Product name: Wax Master crème wax

Application: Depilatory wax

Supplier: Ellisons, 43 Bayton road, Exhall, Coventry CV7 9EF, United Kingdom

Telephone no: +44(0) 845 130 6126

2. Composition/information on ingredients

Material	CAS no:
Colophonium	8050-09-7
Hydrogenated polycyclopentadiene	-
Paraffinum liquidum	8012-95-1 / 8042-47-5
Glyceryl rosinate	65997-13-9 / 8050-31-5
Hydrogenated palm kernel glyceride/hydrogenated palm kernel	-
CI 77891	13463-67-7
Parfum	-
Limonene	138-86-3
CI 15850	5858-81-1

Composition Comments: Please refer to individual raw material MSDS for more information. These materials are commonly used in cosmetic products.

3. Hazards identification

Not considered hazardous under normal conditions of use.

4. First aid measures

Eyes: Flush immediately with plenty of water for at least 15 minutes, keeping eyelids open. Obtain medical attention if irritation persists.

Skin: Hot contact – cool affected parts thoroughly under running water. Do NOT remove adhering material, seek medical attention. If limb is completely surrounded by wax, the wax should be split to avoid tourniquet effect.

Inhalation: Inhalation of this product is unlikely.

Ingestion: Wash out mouth with water.

5. Fire fighting measures

Extinguishing media: Foam, CO2 or powder. Do not use water.

Special Exposures hazards: Irritant fumes.

Protective equipment: Respiratory protection.

6. Accidental release measures

Personal precautions: Avoid inhalation and direct contact with eyes.

Environmental precautions: Prevent from entering drains, watercourses and sewers.

Cleaning up methods for spillages: Contain spillage. Cover with an inert absorbent material and remove to an approved disposal container. Observe local disposal regulations.

Material safety data sheet

7. Physical and chemical properties

Appearance:	Pink viscous semi-solid
Odour:	To match standard.
Solubility description:	Insoluble.
Melting point (°C):	40-50
Congeaing point:	N/A
Boiling point/range (°C):	Above 250
Density at @ 20°C (g/cm ³):	0.98
Flash point degrees:	Above 250

Note: These are typical values and are not intended as a specification.

8. Disposal considerations

Incineration or disposal in accordance with local authority regulations for non-hazardous waste.

9. Ecological information

Biodegradability:	No detailed information available.
Acute fish toxicity:	No detailed information available.

10. Handling and storage

Handling:	Solid product-no special precautions. Molten product-care must be taken to prevent burns from molten product by ensuring that application temperatures are kept to the minimum necessary for adequate product performance. At no time should it be necessary to apply the material above 60°C. Ensure good ventilation in the working environment. Where accidental overheating occurs the source of heat should be disconnected and the molten product left undisturbed until cool.
Storage:	Keep in original containers, tightly sealed and away from heat and direct sunlight. These products may be maintained as solids at ambient temperature or as liquids/semi-solids in a heated environment.

11. Exposure controls/personal protection

Occupational Exposure Limits, fumes:	EH 40.
Personal protection:	Should not be required under normal conditions of use.
Respiratory protection:	Should not be required under normal conditions of use.
Skin protection:	Should not be required under normal conditions of use. If an allergic reaction occurs discontinue use.
Eye protection:	Should not be required under normal conditions of use.

12. Toxicological information

On Eyes	Irritating, but does not injure eye tissue
On Skin	Heated material may cause burns
By Inhalation	When heated emits fumes that irritate the respiratory system

Material safety data sheet

By Ingestion Low order of acute toxicity

13. Stability and reactivity

Conditions to avoid: Keep in cool, dry, ventilated storage away from direct sunlight. Avoid excessive temperatures and sources of ignition.

Hazardous decomposition products: Irritant fumes

Chemicals to avoid: Avoid contact with strong acids and oxidising agents.

14. Transport regulations

Not classified as hazardous for transport.

No labelling required.

15. Regulatory information

Label for supply: Not classified as hazardous.

Risk phrases: Not classified as hazardous.

Safety phrases: Not classified as hazardous.

UK regulatory references: Health & Safety At Work Act 1974
Chemicals (Hazard Information & Packaging For Supply) Regulations 2002

EU Directives: Substances Directive 2001/58/EC

Codes of practice: Safety Data Sheets For Substances & Preparations
Dangerous For Supply

16. Other information

Not restricted under EU Cosmetics Directive 76/768/EEC.

The information provided in this data sheet represents typical analysis for this product and is correct to the best of our knowledge. The information has been obtained from reliable sources but is supplied without warranty. No responsibility can be accepted for any accident or injury incurred through misuse of this product. It is the user that must ensure that the information provided is suitable for their own use.
